

## **Maleic Acid - Applications**

- In the manufacture of Resins and Drying oils
- In synthesis of Malic, Succinic, Aspartic, Propionic, Lactic and other acids
- In Pharmaceutical, Plastic, Textile & Paper Chemical industry
- In oil Industry as an antioxidant to prevent rancidity of oils in storage
- In the pharmaceutical industry for making maleate salts of Bulk-Drugs like Pheneramine Maleate, Chlorpheniramine Maleate and others
- In the manufacture of phthalic-type alkyd and polyester resins, surface coatings, copolymers, plasticizers, lubricant additives and agricultural chemicals;
- In adhesives and sealants
- In dyeing and finishing wool, cotton and silk
- In making polyesters for fibre-reinforced laminated moldings and paint vehicles,
